

Project Demo Planning

Date	15 July 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project objectives, problem statement, and the need for emotion-aware learning support.	2	Tejaswini
2	Dataset & Data Preprocessing	Explain the emotion dataset, text preprocessing, tokenization, and data preparation.	3	Tejaswini
3	Emotion Detection Model	Demonstrate the BERT-based emotion detection model, training process, and evaluation results.	3	Tejaswini
4	Web Application Demonstration	Demonstrate the Streamlit application, user input, emotion prediction, and personalized learning support.	3	Tejaswini
5	Results & Performance Evaluation	Present model accuracy, evaluation metrics, confusion matrix, and system performance.	2	Tejaswini

6	Conclusion, Future Scope & Q&A	Summarize the project, discuss future enhancements, and answer questions from the evaluators.	10	Tejaswini
---	--------------------------------	---	----	-----------

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the problem, objectives, and the importance of detecting emotions to provide personalized learning support.
2	Solution Overview	Describe the system architecture, emotion dataset, text preprocessing, BERT model, and Streamlit-based workflow.
3	Live Feature Demonstration	Demonstrate the application by entering sample text, detecting the user’s emotions, and displaying personalized learning recommendations.
4	Q&A Session	Discuss the project results, future scope, and answer questions from the evaluators.
